Refueling Overhaul Area Upgrades

REFERENCE

36 CFR Part 800, Protection of Historic Properties

10 CFR Part 1021, Department of Energy National Environmental Policy Act
Implementing Procedures, Subpart D, Typical Classes of Actions

PROJECT SCOPE DISCUSSION

The scope of the Site Refueling Overhaul (ROH) Area Upgrades includes the construction of a strong, reinforced foundation for a heavy lift crane and upgrades to a slab for heavy equipment staging in support of the S8G Prototype ROH

The project does not violate applicable regulatory requirements, require construction or major expansion of waste handling facilities, result in unpermitted releases of hazardous substances, or adversely affect environmentally sensitive resources, including wetlands. The project does not involve genetically engineered organisms or species. There are no extraordinary circumstances related to the proposed action. The project has not been segmented to meet the definition of a categorical exclusion and is not connected to other actions with potentially significant and/or cumulative impacts.

CONCLUSION

The ROH Area Upgrades is categorically excluded from additional NEPA documentation under 10 CFR 1021 Subpart D, Appendix B, B1.15. Specifically, the categorical exclusion that applies is:

B1.15 Support Buildings

Siting, construction (or modification), and operation of support buildings and support structures (including, but not limited to, trailers and prefabricated and modular buildings) within or contiguous to an already developed area (where active utilities and currently used roads are readily accessible). Covered support buildings and structures include, but are not limited to, those for office purposes; parking; cafeteria services; education and training; visitor reception; computer and data processing services; health services or recreation activities; routine
